MEMORANDUM FOR: [REDACTED] AD/DCI/IC [REDACTED]

SUBJECT : Review of Mayaguez Post-mortem

25X1

1. In response to your memorandum of 2 July, I have reviewed the two portions of the Mayaguez post-mortem prepared under my auspices. In my view, they contain no material relating to sources and methods or any other substantive information which should be deleted before making the reports available to the staff of the Senate Select Committee.

2. Both of the portions of the Mayaguez post-mortem, however, contain full texts of numerous NSA messages, and also a volume of textual material provided by the Defense Intelligence Agency. This material should be checked with NSA and DIA before passage to the Senate Select Committee staff.
